

THE CORKER

by

SALENA ESTATE

THE REGION

This range of wines was created in the famed Riverland region of South Australia - a significant agricultural district renowned for the quality of its wine and table grapes, and a vast array of other fruit and fresh produce.

Blessed with a truly Mediterranean climate, abundant sunshine ensures consistently high quality grapes are produced every year. Combine this with 'best practice' vineyard management regimes, traditional winemaking philosophies and state-of-the-art production facilities - and you have the perfect recipe for wines of extraordinary character, taste and integrity.

THE CORKER

The Corker label was created to capture the spirit of Australia. Slightly irreverent, casual and easy-going can as easily describe this label as Australians themselves.

The wine cork image, branded 'The Corker' playfully suggests a wine of good quality, yet one that doesn't take itself too seriously. And so they are. Fresh, honest, youthful and exuberant wines that reflect the grape variety and the country they come from.

NON VINTAGE TAWNY

This a traditionally styled Australian fortified dessert wine. Made from extremely ripe and full-flavoured red wine grapes, the wine was fortified with brandy spirit before being matured in oak barrels for a number of years. At bottling time, individual barrels were assessed and then combined together to create a blend consistent with Salena Estate's 'house style'.

The result is a rich, ruby coloured fortified wine showing raisins, plums, mulberries and a hint of licorice. It is mouth-filling, juicy and scrumptious - perfect before, or after a meal.
